

PROFILE

I am a high school graduate who had the opportunity to study majoring in Information Technology up to the thesis stage at the University of AKI Semarang and have worked in various companies related to the IT field since 2011.

I can speak English passively and a little actively.

In addition to basic maintenance capabilities of PCs, servers and networks, I also have some capabilities like web programming using PHP - MySQL, Native Android Programming and also some other general capabilities such as Photoshop, Microsoft Office and Corel Draw.
